

A modern interior scene featuring a light gray sofa in the foreground. Behind the sofa is a wall made of vertical wooden slats. To the right, a glass sphere lamp with a brass-colored base is mounted on a dark wall. A green plant is visible next to the lamp. The text "Decorative panels" is overlaid in the center.

PRODUCT CATALOG

## Decorative **slats**

**Slats** are a decorative novelty in the interior design. Their minimalist design will find its application in any interior style. Slats are perfect as a single wall decoration, decorative openwork wall or as a ceiling decoration. Due to the fact that slats are available in many sizes and wide range of colors - you will choose the perfect slats for yourself! By using our slats you can change your interior in quick and modern way!

# Wall panels

Slats are made with unique attention to every detail. The slats are produced from the highest quality MDF with a durable four-sided laminate. The slats protect the walls against damage or dirt and they are easy-to-clean. Decorative slats are an excellent decoration for residential buildings, offices or public spaces. The possibilities of using our decorative panels are very wide. They can create a wall or ceiling composition, an openwork wall or any type of partition. The slats assembly is quick and very durable. The slats can be mounted with strong montage glue.

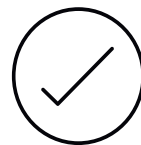

### Modern **design**

Thanks to their simplicity, the slats fit into any interior style! It is the perfect wall finish in modern or rustic interiors.

### Four-sided **laminate**

Thanks to the fact that the slats are laminated on all the four sides, you can mount them with any side to the wall or create a partition.

### Easy to **assemble**

Wall slats are mounted with montage glue. Assembly is just 5 simple steps! - check the assembly instructions.

## *Elegance and modernity*

A novelty on the market - decorative panels with grooves that combine modern design with timeless elegance. Each panel consists of five half-slabs (grooves), which create a harmonious and stylish surface. Thanks to their form, they fit perfectly into both modern and classic interiors, emphasising the character of any room. The panels are flexible thanks to their felt base, which allows them to fit perfectly even to irregularly shaped walls.

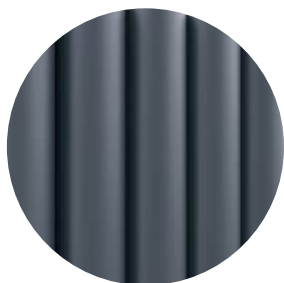

The panels are extremely easy to install - simply glue them on, making the whole process quick and hassle-free. The richness of colours and the high quality of workmanship make these decorative panels suitable for any design style - from minimalist to more classic interiors.

## Configure your panel

**Slatted panels** combine modern design with practical acoustic properties. Thanks to the slats mounted to the felt or HDF board, the panel perfectly absorbs sound waves in the room eliminating the echo effect. Each panel has six slats and is 30cm wide and 275cm high. The panels are extremely easy and quick to install. Simply cut them to the correct height and stick them to the wall or ceiling. In addition, the panels can be screwed to the wall with black screws. The slats are a timeless decoration for any interior!

# Veneered panels

2400x600mm, 2800x600mm, 2400x280mm, 2800x280mm

Acoustic panels are a great option for people who are looking for something original and timeless to suit their interiors, whether installed in an office or a private home.

Veneer acoustic panels are manufactured from natural veneers. We offer eight colour variations of the veneered panels. The slats are made of black MDF covered on one side with natural veneer. The entire panel is constructed on sound-absorbing, high-grit felt.

## Wall slats **Natural oak**

Decorative slats in natural oak color are the perfect solution for wood lovers in interiors. They perfectly fit in with wooden furniture or floor in any room. With their use, you will make a decorative wall behind the TV or the bed. You can glue the slats to the wall with both side: the narrower and wider. Natural oak-colored slats are laminated on four sides. Thanks to this, you can create not only a wall decoration, but also an openwork partition wall and their assembly is extremely easy.

**The mini slats** are an option for those who want to fill their interior with panels without reducing their space. Due to their size, the laths are light and do not take up much space. The laths are available in 14 laminated decors and as a natural oak veneered variant. The laths are laminated on four sides, so they can be fitted to the wall or ceiling with any side.

## Instructions installation of slats

**Step 1**

Use tools to cut the slats to the suitable length. Use a miter saw or hand saw and a miter box as tools.

**Step 2**

Apply MAMUT mounting glue or TESA tape to the slat. The glue should be applied to the slat every 10 cm. One glue is enough to install 12-16 strips from the classic collection.

**Step 3**

Glue the slat to the wall keeping it vertical. Remember that the first strip affects the entire composition!

# Accessories installation

**Saw and bevel**

*MITER*

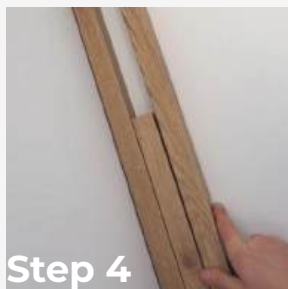

**Glue gun**

*GLUEGUN*

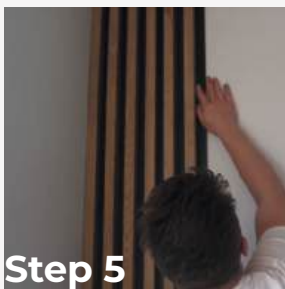

**MAMUT glue 290ml**

*MAMUT*

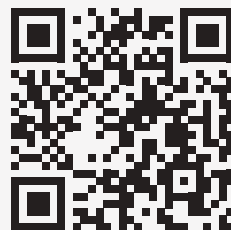

**Step 4**

Use the distances to determine the distance between the next slat. Use previously cut strips as spacers. To hide the unevenness of the wall, you can use masking slats between the slats.

**Step 5**

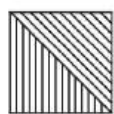

Continue with the installation of the slat by using the spacers or by installing more masking slats between the slats.
